

Paid Internship Consulting Services in Chicago

Start date: April/May 2018

Duration: 9-12 months

Focus: Agriculture / Renewable Energies / Energy Efficiency

We offer you the opportunity to:

- Work on the initiative “[Transatlantic Dialogue – Agricultural Perspectives](#)”
- Work on various programs focused on [renewable energy and energy efficiency](#)
- Gain work experience in a truly bilingual and bicultural environment
- Receive support from colleagues that can help speed the learning curve of understanding intercultural differences and nuances
- Assist in projects promoting the expansion of bilateral trade and investment between Germany and the United States

Main Tasks

- Organization of roundtables and delegation trips between Germany and the US
- Outreach to and correspondence with American and German Farmers Associations and other industry groups related to agriculture and/or clean energy
- Research on various topics related to the above

Please note: As part of GACC Midwest’s Consulting Team you will also support other US market-entry related projects.

Internship specific requirements:

- Interdisciplinary academic background in agricultural sciences, environmental studies or similar
- High-level proficiency in the English and German languages
- Strong research and communication skills (verbal and written)
- Excellent computer skills
- High degree of self-initiative
- Great interest in working with an international team and a high level of motivation to help GACC Midwest accomplish its mission
- Minimum duration for internships is 9 months for interns requiring J-1 Visa sponsorship

To apply for the opening, please click [here](#) and note your interest in the Agriculture/Renewable Energies/Energy Efficiency focused internship in your cover letter.

If you have any questions, please contact Bettina Hannemann, Recruiting and Consulting Services Coordinator at hannemann@gaccmidwest.org.

We look forward to receiving your application!
