

## Internship / master thesis in the socio-economic / agricultural sciences

We are searching an intern with the possibility for a master thesis for the project entitled „*Market behaviour and sales channels in coffee smallholder communities: Understanding the role of side-selling and intermediaries in the coffee sector of Uganda*”.

The project is about marketing coffee and why coffee producers choose to sell their product to intermediaries rather than cooperatives. The social and environmental context is analyzed in order to understand the decision-making processes and to adjust credit and financial options.

### **When?**

- 3-6 months between April – November 2018
